Phyllanthus niruri L. (Meniran Whole Plant)

IMUNCARE

250 mg Capsule
Herbal Medicine (Immunomodulator)

Product Description:
Hard gelatine capsule size 2, body Natural Bov. (43.700) and cap Green Tr. (14.702). Body and cap printed Dexa logo in black.

Formulation:
Each capsule contains:
Phyllanthus niruri L. 250 mg
(Meniran whole plant) equivalent to 50 mg extract

Pharmacology:
Pharmacodynamics
IMUNCARE is made from standardized herbal extract of *Phyllanthus niruri* L. (Meniran) which has gone through preclinical and clinical studies. As an immunomodulator (modulates the immune system), IMUNCARE helps our body to produce more antibodies and activates the immune system to work optimally. IMUNCARE activates both specific and nonspecific immune system, as well as the cellular and humoral immune system.

Indications:
Enhance body immune system components in conditions such as tuberculosis, upper respiratory tract infection, chronic hepatitis B infection, herpes zoster infection, varicella infection, and vaginal candidiasis.

Dosage and Mode of Administration:
1 capsule, 3 times a day.
Or as prescribed by the physician.

Contraindication:
In patients with hypersensitivity to *Phyllanthus niruri* L. extract and patients suffering from autoimmune disease.

Warning and Precaution:
Safety in pregnant and lactating women has not been established.
Even though *Phyllanthus niruri* L. extract is considered safe at the usual dose in human, it should be used with caution in pregnant women due to its high risk in the high dose.

Drug Interactions:
- Currently no data is available on its pharmacokinetic interaction with other medication.
- *Phyllanthus niruri* L. (Meniran Whole Plant) (IMUNCARE) has synergistic interaction with antimicrobial medication to accelerate microbe infection therapy. Antagonist interaction with corticosteroid medications, due to *Phyllanthus niruri* L. (Meniran Whole Plant) (IMUNCARE) ability as an immunostimulant agent, while on the other hand, corticosteroids act as immunosuppressant agent.

Adverse Drug Reaction:
Currently no adverse reaction of *Phyllanthus niruri* L. (Meniran Whole Plant) (IMUNCARE) has been reported based on clinical studies and postmarketing studies.

Overdose and Treatment:
There has not been adequate research or postmarket reports indicating the overdose of IMUNCARE. However, IMUNCARE should still be used following the recommended dose, as there could be safety concerns with high doses of IMUNCARE that have not been studied yet.
In a case that overdose of IMUNCARE is suspected, immediately stop the medication and refer the patient to the emergency unit of a nearby hospital.

Storage Condition:
Store at temperatures not exceeding 30°C.

Availability:
HMRP-12-01: *Phyllanthus niruri* L. (Meniran Whole Plant) (IMUNCARE) 250 mg Capsule (equivalent to 50 mg extract): Alu/Clear PVC/PVDC Blister Pack x 10's (Box of 60's)
